

Professional Profile Website Documentation

Project Overview

This documentation covers a Professional Profile website built for showcasing academic and professional background. The website follows a minimalist design principle ("Less is More") and includes multiple sections to display education, experience, skills, certifications, portfolio, and personal advocacy.

File Structure

Core Files

- **index.html** - Homepage/landing page

HTML Pages

- **experience.html** - Work experience section (2021-2022 event industry experience)
- **education.html** - Educational journey from primary school to current CS studies
- **skill.html** – Programming languages skills
- **portfolio.html** - Projects and work showcase (**layout**)
- **certification.html** - Professional certifications
- **advocacy.html** - Personal philosophy section featuring "Less is More" principle

CSS Stylesheets

- **global.css** - Global styles, header/footer, responsive navigation for all files
- **home.css** - Homepage-specific styling for index.html
- **experience.css** - Experience page styling
- **education.css** - Education page styling
- **skill.css** - Skills page styling
- **portfolio.css** - Portfolio page styling
- **certification.css** - Certification page styling
- **advocacy.css** - Advocacy page styling

JavaScript Files

- **menu.js** - Hamburger menu functionality for mobile navigation and responsiveness
- **darkModeToggle.js** - Dark mode toggle feature with theme persistence

Website Architecture

Navigation System

The website uses a responsive navigation system with:

- **Desktop:** Horizontal navigation pills in header

- **Mobile:** Hamburger menu that displays navigation options vertically

Header Structure

- Avatar section with profile image
- User information (name and description)
- Navigation list
- Hamburger menu button (mobile only)
